OLYMPIC OFFERINGS

As the leader in manufacturing of quality ATA reusable shipping and storage cases, Olympic Case Company is recognized throughout the world for dedication to the use of the highest quality materials, innovative engineering solutions and outstanding customer service. Olympic cases are designed for ease of use and portability, offering the quality and performance that surpasses all others in the market. Not only are Olympic cases designed to customer specifications, the cases are made with materials to withstand the most rigorous of handling, insuring the contents arrive safely.

CUSTOM OFFERINGS

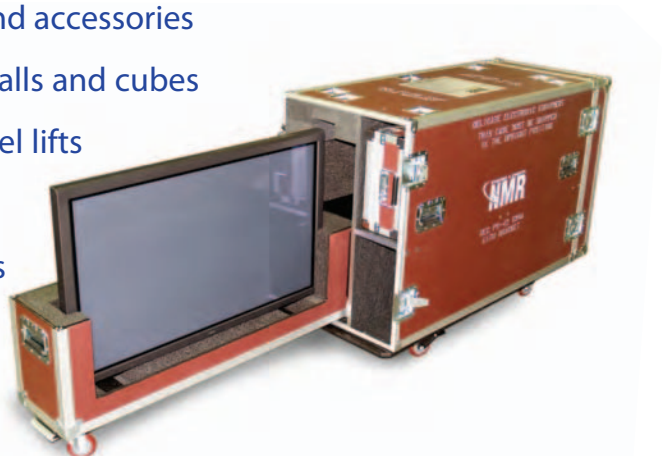

The Olympic creative skills in developing innovative solutions for the customer is unsurpassed. Olympic understands there are many unique requirements for protecting and shipping products. The knowledge and expertise of Olympic has established us as the industry leader in custom cases.

AUDIO / VISUAL

Olympic specializes in the design of custom cases for all types of audio/visual equipment. The experience and working relationship with OEM manufacturers, insures your Olympic case will be custom fit to the product it will house.

- Plasma screens
- Computer equipment
- LED systems
- Flat panel screens
- Projector cases
- Processors and decks
- Flat panel mounts and stands
- Cable and accessories
- Video walls and cubes
- Flat panel lifts
- Lenses
- Cameras

FAST PACK

The Olympic Fast Pack is designed to facilitate the loading and unloading of workboxes and/or racks with minimal effort.

- Custom rails
- Stacking dishes
- Pocket slide doors

This modular case system features a welded aluminum frame, custom molded corners, heavy duty hardware and casters with a truck pack footprint; with steel inner shell and isolator shock mount. Fast Pack insures the transporting of the contents safely and securely.

RACK CASES

No matter the requirement, Olympic offers an array of options. From standard to custom, shock mount to pull-over, Olympic offers racks for all equipment. Olympic welcomes unique application requirements and is ready to custom design the specific rack. Just contact the experienced Olympic team for more information.

- Amps
- PSU
- Video
- Complete systems
- PC and server
- Controllers
- Mixer top racks
- Effects equipment

LIGHTING & SOUND

Delicate sound and lighting equipment requires a high degree of product knowledge, precision design and manufacturing expertise. From the coordination of the cases for “truck pack” to designs for intelligent lighting, the experienced engineers at Olympic understand the importance of protecting the valuable contents. Whatever you need to move, Olympic will custom design the case needed.

- Moving head lights
- Dimmers
- Spotlights
- Public address systems
- Wireless microphones
- Foggers and hazers
- Motor controllers
- Fans & wind machines
- Pyrotechnics
- Consoles
- Stage monitors
- Laser systems
- LED systems
- Podiums
- Studio racks
- Amplifiers

ATHLETIC CASES

Olympic caters to professional, minor league and college sports teams by offering a full range of case options for equipment managers, trainers, coaching staff and video departments. Olympic can produce a case for any and all equipment that needs to be protected and moved from place to place, giving you the confidence that when it gets there, it will be organized and in the same condition as when it left. Olympic engineers will work with you to design the ideal case for your application.

- Anodized Aluminum Extrusion
- 1/2" Laminated Plywood Panels
- Key lock Latches
- Lightweight
- Rain Gear
- Wardrobes
- Field Trunks

- Video Cases
- Supply Workboxes
- Helmets, Shoes and Gloves
- Coach's and Trainer's Field Trunks
- Locker Room Trunks
- Field Equipment
- All-in-one Maintenance Cases

PROTECTOR CASES

Protector Cases are watertight with high impact resistant outer shells. They have the ability to withstand drops, bumps and most chemicals. Larger cases have the option of 2" exterior mounted urethane wheels and pull-out handle for steady and smooth travel. Added protection is provided for delicate instruments by adding custom interior foam. Computer-designed and die-cut for a custom fit, our foam inserts are all standard procedure for our knowledgeable engineering staff.

- Watertight
- Crush Proof
- Automatic pressure relief valve included
- High impact polypropylene
- Heavy duty wheels

SOFT SIDED CASES

The Olympic Gear soft cases are custom fit to your exacting need with high quality material and manufacturing. We will send you detailed CAD drawings for review of your custom design. For added instrument protection, line your custom soft case in soft polyurethane foam with dividers and zipper pockets. Complete your customization with your corporate logo on the side of the case for your sales team.

- Compression foam molded designs
- Wheels and retractable handles
- Samples done at a minimal cost
- CAD design for customer approval
- Standard bags include fanny packs, totes, organizers, briefcases, and instruments cases

ROTO-MOLDED CASES

Roto-Molded cases are rotationally molded to be strong enough to withstand the bumpiest ride. They are resistant to solvents and acids, and provide environmental protection. Rotational molding distributes extra resin to the corners providing added protection where it's critical. Made from high quality polyethylene resins, these reusable containers keep out moisture and dust with their tongue and groove, O-ring sealed construction.

Added protection is provided for delicate instruments by adding custom interior foam. Computer-designed and die-cut for a custom fit our foam inserts are all standard procedure for our knowledgeable engineering staff.

- High quality polyethylene resin
- Integrated tongue and groove
- Meets MIL and ATA specifications
- Interlocking stacking ribs

- Handles - Recessed to flush, pull-out and telescopic
- Corners - Steel and Plastic
- Accessory compartments
- Drawers
- Rack Rails
- Shelves
- Table Legs
- Electric Lift Mechanisms
- Forklift Bases

At Olympic Case Company, we continually strive to provide our customers with nothing but the best custom cases. And now, you can choose to use the Line-X Protective Coatings® instead of the ABS plastic laminate for your cases. The great thing is that Line-X is weather & water resistant and there's no bubbling or discoloration. With Line-X, we can use the Pantone Matching System for that perfect hue you're searching for. This heavy-duty Line-X is also resistant to damage, like scratches, and also resistant to most solvents and acids.

Contact us today for more information on Line-X!!
